CELEBRATING
22
YEARS

Equafleece®

Welcome to the Equafleece® catalogue for 2022/23.

More and more people realise that dogs, and especially very young, elderly or thin coated dogs, feel the cold and hate the rain just as much as people and horses do. Our fleece products are warm, light in weight, easy to wear, machine washable and, if that isn't enough, 100% rainproof when worn close to the body. Also, when you buy from us there are no P&P or other hidden charges within the UK, the only additional cost is postage to return an item to us if the size doesn't fit.

Sizing, Colours and useful information

Please refer to pages 27, 28 and 29 for our colour chart and full details on how and where to measure. You can watch a video to explain this fully on our website under **HELP > Sizing Guide**. If you find it all too confusing do please give us a call on 01822 820550 - we are more than happy to help.

About our fleece

Our fleece garments are made of Polartec® high performance polyester fleece of the grade and quality found in advanced technical mountaineering wear, and which is made from 85% recycled plastic.

Fleece is undoubtedly the best wicking medium and it is this wicking action which continually blocks rain while still breathing away excess heat and moisture. It is much warmer and more durable than wool and thermal cotton, is machine washable and tumble dries.

Our news:-

After 2 years of pandemic madness, it has been lovely to be setting up our stand at the much missed shows, For all of us here, it has been a very isolating and scary time. We owe so much to the NHS, the scientists, their vaccines, and to our faithful pets who have given us such companionship - I hope they forgive us for now going back to work. The full listing of shows we will be attending is on our website under **ABOUT > Show Dates**, or search Equafleece Show Dates on your browser.

Improvements: - Our website has been given an overhaul, we hope you find it easy to use. We have employed more machinists to ramp up production, we should be ready for the coming season as never before. Also, in the next few months, we hope to be able to re-introduce Dog Coats with the front fastening, Tops for people, Calf Coats and Lamb Jumpers. All of these had been suspended during Covid.

As always, we love receiving photos* of your dogs in their Equafleeces to pix@equafleece.co.uk or to our Instagram or Facebook page. A massive thank you to all of you who supplied gorgeous pictures of your lovely dogs, the next brochure will include as many in it as possible. Thank you again for your continued support, we know you are our best marketing medium.

* We assume that any pictures sent to us may be used for marketing purposes i.e. the next brochure.

From us all at Equafleece

Dog Jumpers

Ideal for all over coverage against the wind and rain, and for wrapping up warm at night. Your dog will be so dry and cozy he won't want to take it off.

If your dog is already wet the Equafleece® jumper is the ideal drying tool, wicking the wet away from the dog's coat to the outside of the jumper, without him having to sit in a damp towel. **For the working dog** who is cold and wet through, this is the perfect garment to restore core body temperature and dry off quickly.

The sleeves ensure a comfortable and even fit, insulating the joints without any tension across the shoulders or twisting round, and there are no zips or buckles to lie on or to get in the way of a harness.

More Dog Jumpers for Whippets, Lurchers, Greyhounds; slim Terriers, Spaniels, Pointers; Italian Greyhounds; Dachshunds; Pugs and Bull Breeds over the page.

warm drying 100% rainproof
washable breathable

Putting on and taking off a Dog Jumper:

Go to HELP > How-to-Fit Videos on our website for step-by-step instructions of putting on and taking off a jumper, also detailed in the swing ticket attached to the garment.

Teal Dachsie Jumpers

Dachsie Jumpers

The **Dinky** and **Dachsie Jumpers** have leg holes rather than sleeves to fit long, slim, short legged breeds and are often the best fit for very slim Yorkies and Chihuahuas.

A close-fitting garment will keep your Dachshund completely dry and warm in the wettest of weathers.

For larger Standard Dachsies, the Slim and Super slim Tankies P10 fit very well.

Pug and Bullie Jumpers are for broader breeds of dogs. They are also ideal for any dog that is carrying a little extra weight for whatever reason.

100% Rainproof, warm and great at drying off a soggy dog.

Mulberry 18 Pug & 20 Frenchie Jumpers

Dog Tankies

The Dog Tankie can be worn on its own like a body warmer, over an Equafleece® Dog Jumper as an extra layer on those really cold days, or under any dog coat as a base layer.

As with all our products, the Tankie is 100% rainproof, comfortable to wear and suitable for all dogs. It has no buckles and straps so is ideal for the older, more sedentary dog that doesn't move like he/she used to. Also for those canines who are finicky about their legs and feet.

It is styled like a dog jumper but with spacious leg holes and a 1" wide collar.

More Dog Tankies for slim Whippets, Lurchers, Greyhounds, Pugs and Bull Breeds over the page.

Putting on/taking off a Tankie:

Go to HELP > How-to-Fit Videos on our website for step-by-step instructions of putting on and taking off a Dog Tankie, also detailed in the swing ticket attached to the garment.

Cobalt Blue 24 Bullie Tankie

Dog Suits

The Equafleece® Dog Suit has become one of our best sellers, a four legged garment for all over protection from the wet, improved drying and extra warmth. Our grade of Polartec® fleece is super stretchy so it is very easy to put on and off without the need of buckles, straps or velcro. Whether used for a competition dog, working dog or just one that suffers from arthritis, the luxuriously soft fleece means it will be super comfortable. The area between the back legs is open so as not to interfere with all male and female bodily functions.

See over the page for more Dog Suits for dainty Toys and Terriers, slim Spaniels and Poodle mixes, Whippets, Lurchers, Greyhounds and Pugs.

Putting on/taking off a Dog Suit:

Go to HELP > How-to-Fit Videos on our website for step-by-step instructions of putting on and taking off a Dog Suit, also detailed in the swing ticket attached to the garment.

Ensuring a perfect fit

FULL DETAILS ON PAGE 29

It is important that the Dog Suit fits well, not tight or baggy.

It may require 2 people to measure your dog accurately. Write down all the 5 measurements and either enter them into our sizing calculator on our website (Dog Suit page) or call us with all 5 measurements to hand.

Cobalt Blue 26 Bullie Suit

Polo Neck Coats

The easy to put on Polo Neck Coat is an alternative style of coat which eliminates the front buckle for added comfort and offers a higher degree of neck protection. It is cut deeper under the belly for increased coverage, guarding against the splashes of muddy walks.

Like the jumper this fleece coat is fantastically rainproof, warm and washable. It may look wet on the outside, but your dog will be bone dry and toasty warm, even after being out for 4 hours in torrential rain.

It is also exceptionally good at drying off the already wet dog and is used extensively for drying working dogs and for after hydrotherapy.

See over the page for more Polo Neck Coats for Whippets, Lurchers, Greyhounds, Dachshunds. Cockapoos may fit into the Slim Polo Neck Coats over the page due to their narrow bodies.

Colours:

Summer Suits

The **Summer Suit** is a fabulous garment, ideal for our typical wet English summer weather, but also perfect in winter for dogs that don't need a thermal layer.

Made from a technical fabric, similar in look and feel to cotton T-shirting, but wicking and with a really good degree of water-repellence. Not 100% rainproof, but definitely showerproof and, more importantly, 100% mudproof. The Dachsie sizes are designed specifically for Dachshunds with short sleeves.

Originally designed as a **Tick Suit**, this garment is meant to be a bit more fitting without being tight. As a result, it won't be a problem if your dog happens to briefly take to the water, though it is certainly no wetsuit!

T-shirt Body

How cool do you feel in a wet T-shirt? The same will apply to your dog on a hot day. Applied damp or wet, it will reduce your dog's body temperature greatly.

Brilliant for dogs with rashes, grass allergies, alopecia and for keeping post-operative dressings in place.

Also used extensively by TTouch canine behaviourists as a protective portable hug to calm your dog when anxiety strikes - for instance during thunderstorms and firework displays. While this may sound cranky it does actually work.

Comfortable, soft and maintains its shape. Made from 93% cotton and 7% elastane.

£7.00 FREE P & P

Fur Collars

These premium quality prints make a fabulous addition to the Dog Jumper, Tankie, Suit or Polo Neck Coat. For £7 we replace the fleece collar with your choice of faux fur collar - so chic for indoor wear though not water-repellent. The faux fur is not so stretchy so the collar is cut wider than the fleece to enable easy fitting.

We make these to order and cannot refund or exchange.

Mulberry 31 Jumper with zip

£12.00 FREE P & P

Zip down the back

The zip can be added, over the phone, to a Dog Jumper, Suit and Tankie - super comfortable with a wide zip flap to stop any hair catching, and a joy for the very stiff or arthritic dog to put on.

If you have not ordered before for a dog, we will advise you try the garment for size first, then send it back to us for the zip to be added. A zip can be added at any stage, to new and old garments alike. **We make these to order and cannot refund or exchange if the size is incorrect.**

The zip opens as far as the Equafleece label. Unzip and put the hind legs in position first. Once hooked up over the tail, load the front legs. Zip up.

N.B. A zip is not necessary for young active dogs as Polartec® fleece is very stretchy.

£4.00 FREE P & P

Dog Nots

A robust toy for dogs to rag with, the Dog Nots are four strands of fleece plaited together by hand in various colour combinations.

Neck Warmers

Fleece was first developed as a next to skin layer, in many cases as underwear for extreme conditions.

The neck warmers are fabulous at keeping you warm and dry whatever the activity and weather.

Freddie showing the best fit for a Dog Suit

Fred fits into the 18/20 and the 18/20 slim.

Fred's mum prefers him in the 18/20 because it is spacious without being saggy.

The suit length shouldn't be so short that it doesn't reach the tail, and not so long that it hangs 2" or more over the tail.

The fit of the chest should not be sagging, but also not too tight or it would start to restrict movement. This one is the ideal width, with a few wrinkles showing there is a little spare room for comfort.

Fitting other garments

The same fit is also relevant to the Dog Jumper, Dog Tankie and the T-shirts.

Freddie in a Size 16

This suit length is too short, exposing his bottom, so is too tight at the top of the back leg. This will cause discomfort and eventually tear.

Whilst a snug fit sounds cosy, you wouldn't want the chest width to look any more close fitting than this.

Freddie in a Size 22 Slim

Overall length is too long resulting in excess fabric through the body and over the tail. Probably covers his willy too.

Body width would be ok if the length was correct.

Every dog is different and we understand that getting the best fit is tricky. We hope this gives you an indication of how the best fit should look on your dog but if you need further help please email us your pictures to sizing@equafleece.co.uk.

Like and follow us !

We are really active on social media and love sharing fabulous photos of your dogs. Our website and brochures are solely made up of customer pictures. Feel free to pop us a message to say hello anytime.

Sizing your dog

We have a **Sizing video** on our website which can be helpful to watch to see how it's done, **HELP > Sizing Guide**.

Ensure your dog is standing up, facing forward and not hunched or bending - as if looking at something exciting like a rabbit.

Take all 5 measurements shown in the diagram,.

You can write them down below as you go **inches / centimetres** (don't mix)

- a. **Length** (Main measurement)
- b. **Neck** (in the middle)
- c. **Chest** (broadest part)
- d. **Waist** (narrowest part)
- e. **Backbone** (Base of neck to tail)

The Calculator won't play!

If the Sizing Calculator can't size your dog immediately, please don't be alarmed, it may be because of one of the following:

1. Our Calculator has a min-to-max range for all the 5 measurements. It only takes one of your values to be outside of our range by a tiny amount and, as the computer can't think, it can't compute.
2. The (a) measurement can be very tricky, most dogs hunch their backs or squirm rather than standing proud. Not helpful if on your own!
3. The sizing calculator may think you are entering inches instead of centimeters, or vice versa?

If still no luck, please fill in Dog Breed and Age and then click **Send Us Your Measurements**. We can usually work out what the sizing calculator can't, and email you back within 2-8 hours. We do reply to every single one, so if you haven't had a reply please check your Spam and Junk.

If you prefer to speak to one of us, you can call us with all 5 measurements on 01822 820550, we are always happy to help.

The (a) measurement is from the breastbone, around the shoulder and then up to the root of the tail in an arc.

When taking (b), (c) and (d) the tape measure should be fitting to your dog's body, flattening the hair with no spare space, **but definitely not tight**. (If no soft tape is available, you can use a piece of string or a dog lead and then measure against a builder's tape).

The (e) is along the backbone, **bottom** of neck to root of tail - again with your dog standing up, facing forward and not hunched or sitting.

Choose which style of garment you want on our website, click on What Size Do I Need and enter your dog's 5 measurements directly into the **Sizing Calculator**.

Leg Length

Each size has a standard leg length. If this is too long you can trim the sleeves to your required length - Polartec® does not fray. If not long enough, we can make a bespoke suit with longer legs before 20th September for a surcharge of £20

To Order

- EITHER**
- Fill in the order form and post it to us at the address below with a cheque or credit/debit card details - orders paid for by cheque may be delayed for clearance.
 - Telephone us with your credit card or debit card details.
 - Visit our website www.equafleece.co.uk and order online

If you have any queries regarding a special order please telephone us on 01822 820550 and we will help if we can.

Navigating around our Website:

You can buy our products with complete confidence on a secure server from our website www.equafleece.co.uk. There are videos to show you how and where we measure: HELP > Sizing Guide, videos to show you how easy it is to put on and remove our fleece garments: HELP > How-to-Fit Videos, and on each product page there is a sizing calculator under What Size Do I Need.

Sizing:

While we make far more dog coat and jumper sizes than anyone else we know of - from Chihuahua to Great Dane - if your dog is very narrow or broad please let us know as this will help in establishing the correct size. We can also make to order though this does carry an extra charge of between £10 and £20 and may not be available during our busy season. All telephonists are very knowledgeable and will give advice on the information given to them, but are not accountable for items that do not fit.

Delivery:

We aim to hold stock of all the items for sale in this brochure and to dispatch on the first working day following the day your order is placed. Items that are not in stock are not available for order online. If not in stock, you can call us to place the order, we aim to make it and send it within three weeks. We endeavour to let you know if for any reason we do not expect to be able to meet that deadline. In all cases, payment is taken on order.

Free UK delivery is on a Tracked Second Class Royal Mail service. For an additional charge we can despatch by Tracked First Class (£2.50) or Special Delivery (£7.50). If an item fails to arrive please inform us as soon as possible so that we can track the lost item, often it can be located by GPS.

Returns: If an item does not fit, please return it before it is worn outside

You have a legal right to return any goods ordered online or by telephone within seven days of receipt for replacement or a full refund **provided the goods are in a resaleable condition**. We are happy to exchange and refund goods outside this time limit but we cannot exchange items that are soiled, smell, are hairy or have been washed or brushed. Items returned for exchange or refund that are not in as new condition will wait to be processed until we have time to assess the damage. This can be up to 3 months.

Returning items to us: YOU HAVE TO PAY FOR THE RETURNS POSTAGE - tracked delivery is advised but not necessary. Please keep your Post Office receipt/Proof of Posting. We pay to return any replacement garments which will be dispatched Second Class unless you request otherwise.
